## Summary

---

I am a Software Engineering student from Western Oregon University with experience in full stack development using the ASP.NET framework. I have good experience working in a close team environment using a Disciplined Agile Delivery team structure from planning phase to release phase. I am seeking to become a junior developer so that I can continue to develop both my programming skills as well as my team co-ordination abilities.

## Technical Skills

---

**Languages:** Proficiency in C++. Knowledge in C, C#, Java, Kotlin, Python, Javascript including JQuery & Ajax, SQL, HTML, CSS, LINQ

**Platforms & Frameworks:** Windows, Android, Full Stack ASP.NET (MS .Net Framework)

**Others:** Microsoft Office, Android Studio, Visual Studio, Microsoft SQL Server
